

VII INTERNATIONAL CONGRESS OF AUDIOLOGY

Copenhagen 1964

The congress begins Tuesday afternoon the 25th of August 1964 and ends at noon Saturday the 29th. It is supposed to be joined by about 400 people dealing with physics, psychology, otology, sociology and teaching.

The papers are all given in one session in the anatomical institute of the University of Copenhagen.

On each of three mornings round-table conferences are established dealing with the following topics:

- I Binaural hearing - Moderator: J. J. Groen, Utrecht
- II Acoustic impedance of the ear - Moderator: J. Zwislocki
- III Modifications of speech audiometri - Moderator: S. R. Silvermann

In the afternoon there will be associated and free papers and discussion.

In November 1963 preliminary program will be sent to everybody interested.

H. W. Ewertsen, president
K. Terkildsen, general secretary
