Effects of contralateral white noise on click-evoked emissions in normal and sensorineural ears: Towards an exploration of the medial olivocochlear system

L. Collet, E. Veuillet, J. Bene, A. Morgon 1

Tympanic electocochleography: Normal and abnormal patterns of response

Effect of sleep on binaural interaction in auditory brainstem response and middle latency response

T. Suzuki, K. Kobayashi, K. Aoki, Y. Umegaki 25

Clinical pure-tone versus three-interval forced-choice thresholds: Effects of hearing level and age

S. Gatehouse, A. Davis 31

Hearing loss from industrial noise, head injury and ear disease

M. Neuberger, K. Korpert, A. Raber, F. Schwertz, P. Bauer 45
