Frequency-specific auditory brainstem responses to bone-conducted stimuli

S. J. Kramer 61

Dependence of auditory brainstem response on click polarity and high-frequency sensorineural hearing loss

R. Schoonhoven 72

Frequency response differences of four gain-equalized hearing aid prescription formulae

T. A. Hamill, T. P. Barron 87

Psychophysical studies using a multiple-electrode cochlear implant in patients who were deafened early in life

P. A. Busby, Y. C. Tong, G. M. Clark 95

Technical possibilities in the school situation for the education of hearing-impaired children

M. H. P. Stollman, T. S. Kapteyn 112

Announcements 71, 93
